

Adlerac 1 Meter -High Performance Server Rack

Build especially for
your favourite High
Performance Servers
from Compaq®, Dell®,
Hewlett Packard®,
IBM®, Sun® and NEC®.

Designed to TIA specifications with a depth of 1 meter. The additional depth allows for complete freedom of equipment. The frame is constructed from toughened extruded aluminium and finished with Adler's distinctive detailing. Features include the standard range of Adlerac quality trimmings: SABS approved smoked and toughened glass door with lock; hinged side panels strengthened by its double bent edges and welded corners; raised top for extra ventilation; depth reducers; punched profiles and adjustable feet. For additional cooling Adlerac offers a range of doors that allow your servers to hum away sweetly and happily.

600mm x 800mm Aluminum Frame Rack

Part No.	Description	Width	Height	Depth
