

Adlerac Custom Products

Adlerac Slack Rack

The ideal solution for massive cable densities experienced today by sprawling enterprises. This slack cabinet does exactly what its name implies - take all the excess cable and stores it away neatly. It fits flush against Adlerac's Gold Rack and thus blends in harmoniously with its environment.

Available in heights of 38'U', 43'U' and 47'U'
300mm wide with depths of 600mm and 900mm.

Adlerac Comms Rack

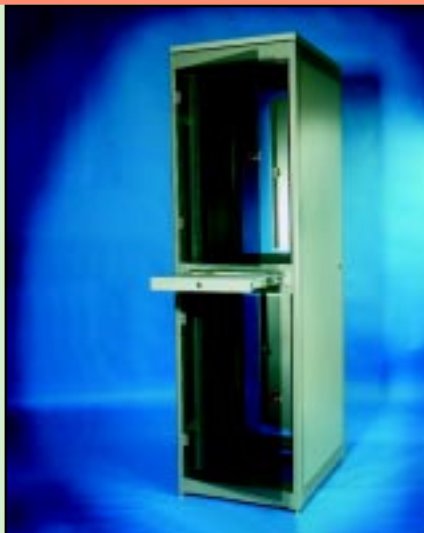

This is the ideal solution for all telecommunications rooms. This Adlerac cabinet is fitted to a telecoms wall and houses the interconnecting blocks for all telecommunications links from outside the building.

Various telecoms panel options are available.

Available in heights of 38'U', 43'U' and 47'U'
300mm deep and 600mm or 900mm wide options available.

Adlerac Split Rack

This ingenious little design from Adlerac is the ideal solution for server rooms where various people need to operate on the cabinet. The cabinet is split and has three lockable compartments. The bottom is where the server is housed, in the middle is your lockable keyboard with monitor and switching equipment. This design enables access to the right people to the right equipment. Thereby securing that unnecessary downtime is avoided.

Adlerac Ventilated Rack

This Adlerac was designed for equipment that requires high levels of cooling in environments that are exposed to insects. All cooling panels are ventilated and access into the rack is sealed.
