

# The Adlerac Platinum Range

This popular rack was designed to industry standard DIN41494 specifications (sections 1 through 4). Its frame is constructed from toughened light weight extruded aluminium and finished with stylish and distinctive detailing. This light weight cabinet is built upon Adlerac's previous and very successful Gold Range and offers the same modularity in design which our customers have become accustomed too. Improved choice of installed equipment and many ease of use features. Additional features include SABS approved smoked and toughened glass door with ventilated side panels and hinged for fast door removability; hinged side panels strengthened by its double bent edges and welded corners; ventilated and angled top; depth reducers; punched profiles and adjustable feet.
