

# The Adlerac Steel Wallbox

This box is fabricated entirely in sheet metal with a lockable glass door. This unit provides a low cost solution for installations where a free standing rack may not be the ideal solution. Punched profiles are adjustable for added flexibility. The range offers several useful variations including a choice of swing frame collars, removable side panels (on request) and steel doors and back panels (on request). The boxes are pre-treated and finished in epoxy powder coating. The standard colour supplied is goose grey.
